

Certificate of study status for the immigration office Doctorate

As the stay for study purposes (study preparation - study - doctorate) is limited in time under immigration law, the immigration authorities expect a concrete study prognosis after a certain period of time in Germany. For the statement of the Department of International Relations on the expected date of completion of a doctorate, we require the following information:

1) The statement of the doctoral candidate

2) A short written statement by the doctoral supervisor on the following aspects:

- How far has the dissertation progressed?
- Were there any reasons for a delay in connection with the doctorate?
- When can the dissertation be expected to be completed?
In which period of time - as far as this can be assessed at present - can the Disputation/
Rigorosum take place following the dissertation?

Please send the completed and signed documents by e-mail to

andrea.kumler@zuv.uni-heidelberg.de

or come by during the office hours:

Tuesdays from 10am to 12pm or Thursdays from 1:30pm – 3:30pm.
