

Heidelberg Talks Online

Dear all!

October 9, 2022

The next *Heidelberg Talks Online* (HTO) session takes place on **Friday, October 21, 2022, 7-8.30 pm CEST** (GMT/UTC +2). The topic will be

***Ukrainian power plants under attack –
decision support for nuclear emergencies***

The speaker will be **Wolfgang Raskob**, Deputy Head of the Institute for Thermal Energy Technology and Safety (ITES) at Karlsruhe Institute of Technology (KIT), elected member of the Crisis Team of the German Radiation Protection Commission and Member of the Management Board of the European [NERIS](#) Platform on Emergency management. Mr. Raskob is also Head of the Accident Management Group at ITES/KIT, co-ordinator of all [RODOS](#) related developments and member of the coordination board of CEDIM (Center for Disaster Management and Risk Reduction Technology) as well as advisor of the Hong Kong Observatory and the Institute of Environmental Radioactivity of Fukushima University.

Please register [here](#) and check out [this website](#) for previous HTO events.

All the best,
